IT'S *Your* FREEDOM *they're fighting for . . .*

Risking their lives on the high seas to protect vital shipping . . . fighting with rifle and bayonet in steaming jungles . . . slamming high explosive shells at the enemy from lumbering tanks, in battles fought on hot desert sands . . . fighting in high speed planes over the skies of Germany—it's YOU these heroes are fighting for!

They look to you for the help they need, for vital equipment to smash and defeat the enemies of the Empire and of democracy.

Are *You* Doing YOUR Part?

Your part in this world struggle is just as strategic as that of the men in uniform. You are asked to supply the money the government needs to conduct the war—to loan your money to the government at a good rate of interest. It is vitally important that you do *more* than just that—you are asked to make a sacrifice in your living expenses and buy as many bonds as you can. See to it that our forces get the equipment they ask for—when they need it.

Make a DEFINITE SACRIFICE—
BUY VICTORY BONDS

GREETINGS

For the past eighteen years the members of the Winnipeg Winter Club have presented annual Skating Carnivals of increasing popularity. As a result, in recent years, many hundreds have found it impossible to obtain tickets and are therefore disappointed in not being able to witness this spectacle of colour, dash and rhythm. The Club feels keenly appreciative of this public acclaim and this year believes it offers, in its nineteenth Carnival, the best production to date. May you all enjoy it.

In keeping with the times, the theme running through our settings is a military one. It is presented in a manner different to anything previously seen in Winnipeg. In developing the theme and the production of the Carnival, we have been fortunate in the capable direction of Mr. Gene Theslof. Mr. Theslof first appeared here on the ice at last year's Carnival with his partner, Miss Ann Taylor. Besides acting as Director for this year's performance he and Miss Taylor will again thrill a Winnipeg audience in one of their most spectacular numbers.

It is a particular pleasure to welcome to Winnipeg for the first time, Miss Vivi-Anne Hulthen. This talented young lady from Sweden was runner-up at the last Olympics and is famous throughout Europe and America for her artistry on ice. Her charm and ability as a free skater and ice ballerina places her as one of the foremost of the world's figure skaters.

And there is pardonable pride in having on our programme for this Carnival our own Mary

Rose Thacker. In January last Mary Rose successfully defended her title as Canadian Ladies, Senior Figure Skating Champion. She is still the North American Champion and all Winnipeg rejoiced in her winning the Rose Bowl, emblematic of her being the outstanding women's athlete of Canada last year.

We are happy, too, to have Bobby Specht of Chicago with us once more. Since his appearance in Winnipeg at last year's Carnival, Bobby has added to his laurels. Within the last week or so he has won the honour of being the United States Senior Figure Skating Champion.

The music for the Carnival, through the permission of Air Commodore A. B. Shearer, A.O.C., is supplied by the Royal Canadian Air Force Band, under the leadership of Warrant Officer C. South. The capable spirit of co-operation from this organization adds much to our Carnival and is greatly appreciated.

A word must also be said of the friends of the Club and the Club members whose tireless efforts have made this Carnival possible. Though many will be seen on the ice, there are yet many others, whose work on costumes, designing and perfecting of effects, or in the less glamorous activities necessary to a successful Carnival have resulted in the finished production. To all, visiting and local skaters, band and producers, we can only say "Thank You" on your behalf.

HAROLD A. SMITH, President,
Winnipeg Winter Club

A NOTE ON THE MODERN SKATING WORLD

Since the advent of the large professional shows which have toured extensively in recent years throughout the United States and Canada, the aspect of the average skating show has changed tremendously.

Emerging from the limited scope of an entirely athletic performance, the skating show, as we see it today, is rapidly developing into theatrical entertainment rather than a display of athletic ability.

At present, costuming, lighting and the interpretation of music are the paramount factors in the success of this form of entertainment. It is no longer possible for skaters, regardless of the importance of their title, to skate out in half-hearted fashion, and then to go on through their routine heedless of the lights, of the music, hoping that the drummer will accompany them on their various jumps and spins. There is an unbelievable amount of arduous and time-demanding detail work behind the show which you see tonight. Every step must correspond to a bar of music. Hence, we find that a number which may take three minutes on the ice has taken from four to five hours of deliberate planning to assemble.

In the matter of costuming, one large skating show which toured the United States this winter spent \$72,000 on costumes alone, not counting rehearsal costs, etcetera. This was more than Ziegfeld in his days of glory had ever spent on his most lavish shows.

Lighting is an item which the public seldom notice but rather accept as a part of the whole. The Toronto Skating Club is known to have spent in excess of \$50,000 on special lights, arcs and apparatus to obtain certain desired effects.

GENE THESLOF

In past years the Winnipeg Winter Club Carnival has been produced by a committee picked from the members of the Winnipeg Winter Club. This year we were very fortunate to obtain the services of Mr. Gene Theslof of Hollywood, California, who has produced and directed the entire show you see this evening.

His experience in the motion picture studios and professional ice shows throughout the Western Hemisphere has qualified him to produce and direct in a more than able fashion the Revue that you are witnessing tonight. (Continued on page 31)

Salute to Suits

**-- and to the
women who
wear them!**

We salute Winnipeg's volunteer army of women war workers... who are putting their time and talents at their country's service. We salute the capable, energetic force that successfully carries on patriotic duties and the management of a home. Their watchwords are speed, efficiency and fashion neatness. Their official uniform....suits....like this saddle-stitched British wool casual from the "Bay's" spring collections, at 39.50.

THE FIRST NO. 2 COMMAND R.C.A.F. BAND

MEET NEW FRIENDS AT THE WINNIPEG WINTER CLUB

The Winnipeg Winter Club and the War

It is perfectly natural that an institution, such as the Winnipeg Winter Club, should feel the effects of the war. What organization can escape it? And yet, this Club carries on, and, at the same time, renders an unique service in Canada's War effort.

Consider first the number of Club members who are already on active service. It is interesting to note that thirty-two senior members who have enlisted, are on active service outside this Province, some already being overseas. A further ten members have enlisted and are serving at present in Manitoba. And then, there is a special group belonging to the Club, known as "Military," that totals twenty-six members. To these sixty-eight should be added the sons and daughters of Club members, who have enlisted and are serving at home and abroad in practically every branch of Canada's armed forces. It would be no exaggeration to say the grand total, well over a hundred or more, are doing their part on the sea, on the land, and in the air, staking their all for victory. And, through the facilities available, the Winnipeg Winter Club is proud to know that it has helped contribute to the physical well-being of those who have volunteered.

Another contribution made to Canada at war has been the donations of the profits of our Carnivals to war work. In 1940, from the proceeds of the Carnival that year, \$2,131.93 was turned over to the Canadian Red Cross. From last year's Carnival \$1,171.97 was donated to the War Services Fund, \$1,171.97 was sent to the Canadian Red Cross, and \$1,000.00 was given to the R.C.A.F. Benevolent Fund. The Club intends to continue its contributions to the financial aid of Canada; as much and as often as it is able to. The Club, too, has been substantial purchasers of every War and Victory Loan to date.

And, around the Club, you would note almost a constant undertone of clicking needles, since our lady members are very active in their personal knitting efforts for men in the service. Or perhaps you might frequently notice little groups of women who use the Club lounges and rooms in planning the details of their war work. All this is possible where people mix a nicety of recreation with the more serious work they are doing.

Increasingly, the Club is proving popular to many in the forces who are invited by our members to be guests at the Club. In fact, this last year these visitors have included men from England, Australia, New Zealand, and other parts of the British Commonwealth, as well as many of our Allies in Arms. Granted that this is a personal contribution by our members, to the pleasure and enjoyment of men and women in our midst. At the same time the several thousands who have been invited to be guests at the Club are high in their praise of our recreational facilities and of the pleasant break it has given them in their duties.

Thus, in its own way, the Winnipeg Winter Club is serving Canada at war. The final item is the two donated announcements made on pages 3 and 24. Read these announcements carefully, and together may we all play our part.

Little Drops of WATER...

It takes a lot of water to fill a bucket, when you measure it drop by drop. But a bucket of water will quench the thirst of many thirsty men. Rain is made up of millions of drops of water, but rain fills the great reservoirs that turn the mighty turbines, making the nation's power.

Canada in this crisis depends on you for financial support of the war effort. Hundreds of thousands of Canadians are making regular purchases of war savings certificates and together, these men and women are paying for millions of dollars worth of vitally needed implements of war.

The key man in this vast flow of moneys is **you!** Your regular purchases of war savings certificates is an aspect of war financing that it is vital to maintain. Do all you can to buy war savings certificates regularly. There is no better investment.

Orchids TO THE ICE STARS

By years of repeated practice these Ice Stars have acquired the necessary control and finish to mark their performances with agility and grace. We believe they will thrill and please with their eye-catching appeal and fascination of well-timed, perfectly poised movements . . . their flashing blades, executing the most intricate figures.

Thirty-six years of ALL TRUCK building experience has given International Trucks a reputation for rock-bottom economy in both upkeep and operation. And the greatest organization ever set up to keep trucks profitably on the job is ready to service Internationals anywhere.

Whether your business is delivering orchids to a lady, groceries to her family, or fuel to her home, get an International Demonstration. Drop in. Let's talk it over.

SHERWIN-WILLIAMS PAINTS VARNISHES & ENAMELS

The color effects achieved on the skating surface of the ice
were accomplished by the use of Sherwin-Williams Products.

THESLOF (Continued from page 4)

The Carnival actually had its beginning last December when the Winnipeg Winter Club engaged Mr. Theslof and he subsequently visited Winnipeg and spent some eighteen hours a day in conference with Miss Chown and Mr. Whitehead, the Winnipeg Winter Club professionals, who have assisted him in carrying out the preliminary detail work which he outlined at that time. He flew to Hollywood to collaborate on costume designs with one of filmdom's best designers, then returned on February 1st to complete and polish the ballets, drills and solo performances, which are being witnessed tonight.

In closing, the Winnipeg Winter Club is very appreciative and grateful for the work which Mr. Theslof has accomplished in a very limited time and the skill and talent which he has brought to bear.

GENE THESLOF and ANN TAYLOR

of Hollywood, California

The skating pair of Gene Theslof and Ann Taylor who made their initial appearance in Winnipeg in the last Winnipeg Winter Club Carnival and who again present a new entertainment in their own inimitable style for you this evening, have travelled many thousands of miles since we saw them last. Upon leaving here last year they flew to the East and headlined Toronto, Boston and New York Carnivals. After vacationing in Florida and California respectively, Mr. Theslof and Miss Taylor journeyed to Rio de Janeiro, Brazil. There in the glamorous atmosphere of the world's largest casino, they thrilled Brazilians who had never before seen an ice rink or a pair of skates.

Mr. Theslof and Miss Taylor return to you with a brand new routine in which it is their boast that not one of the lifts which comprise the routines can be duplicated by any other living skaters. As an interesting sidelight on this pair they have long made it a practice that, should any other skaters use or learn one of their lifts, they immediately discard it, never to be used again.

VIVI-ANNE HULTEN

of Stockholm, Sweden

Known throughout the skating world as "Vivi-Anne," this talented skater from Europe has won recognition as the world's outstanding exponent of interpretative ballet on ice. Ten times champion of Sweden, twice runner-up in the Olympic games, Miss Hulten has defeated all comers in the free skating division of the world competitions.

During the last five years Miss Hulten has carried with her on her tours her own private ballet teacher, Mr. Stanley Judson of London, England. It is through her constant observance of the principles of ballet and wide knowledge of music that Miss Hulten is at this time able to bring you a blending of the three arts, ballet, music and skating, which has brought her to an unchallenged peak in her own field. (Continued on page 33)

VIVI-ANNE HULTEN (Continued from page 31)

Having headlined all the ice carnivals in the large Eastern cities in recent years, Miss Hulten is at present engaged in teaching at the Chicago Figure Skating Club and is producing and directing a number of Carnivals throughout the East. It is the pleasure of the Winnipeg Winter Club at this time to present Miss Hulten on her first visit to Winnipeg. We feel sure that you will enjoy her performance here.

BOBBY SPECHT

of Chicago

To quote one of the greatest authorities on skating today, Mr. Montgomery Wilson, for ten years North American Champion, "It is a great shame that we have no world championships today because Bobby in his free skating would undoubtedly win them thumbs down. I have never yet seen the equal of his styling, speed and feeling for music."

Thus we bring you a skater who is familiar to the Winnipeg audience but who since having appeared here last has achieved new and signal honours. In the United States National Figure Skating Championships last week, Bobby Specht defeated all competitors and came through the competition with flying colours as Senior National Champion of the United States.

During the past year Mr. Specht has been the pupil of Miss Hulten, having studied with her both in Hollywood and Chicago. This combination of pupil and teacher was indeed a fortunate one in that adding to his natural youth, speed and zest, the experience and smooth flow which is Miss Hulten's greatest asset, Bobby has really become the ideal combination of athlete and artist.

MARY ROSE THACKER

It is with particular pride that the Winnipeg Winter Club includes Mary Rose Thacker as one of the stars of this year's Carnival. She made her Carnival debut fifteen years ago while just a little tot. Since then her progress has been steady to the championships of figure skating.

In 1939 she first won the Canadian Ladies' Senior Figure Skating Championship at Toronto and has defended and held that title each year since. It was also in 1939 that Mary Rose won the North American Ladies' Senior Figure Skating Championships and in 1941 successfully defended that title. She, therefore, is the best amateur lady figure skater on this continent today. In recognition of her ability in the field of sport she won the Rose Bowl last year, emblematic of leading woman athlete of Canada.

Unusual as it is to pay tribute to one of our own Club members in these Carnival programmes, we feel Mary Rose well deserves special mention. And certain it is, all Winnipeg wishes her continued success in her chosen art.

Our Best Wishes

to the

Winnipeg Winter Club

PATRICIA CHOWN AND RUPERT WHITEHEAD

Winnipeg Winter Club Instructors

Much of the early training and finished ability of our Club members is the result of capable instruction given by our professionals. Well known to a Winnipeg Carnival audience, their individual attainments and records deserve mention.

Miss Patricia Chown, who has spent her entire career professionally at the Winnipeg Winter Club for the past three years, holds the Bronze and Silver Dance Tests, and the Bronze and Silver Figure and Free Skating medals.

Mr. Rupert Whitehead is the holder of the Bronze, Silver and Gold medals for School Figures and Free Skating. Prior to coming to the Winnipeg Winter Club two years ago as Professional he was instructor for two years at the Glenora Skating Club, Edmonton, Alberta.

Our professionals are very popular with Club members, and under their instruction, many of their pupils have become advanced skaters in Figures, Free Skating and Dancing. During their years with us many Club members have won Bronze and Silver Medals. It was also a creditable record made by Winnipeg Winter Club members at the recent Dominion Championships.

APPRECIATION

The Winnipeg Winter Club again acknowledges its appreciation of the splendid spirit of co-operation evidenced by the entire personnel of the R.C.A.F. Band and particularly of Warrant Officer South. As was stated in last year's programme, "The Band is not a competitive organization. The war situation in which the nation finds itself explains its existence in Winnipeg's musical life. The motive is to honourably serve His Majesty's fighting forces, to inspire and keep up morale—in short to win the war." From our observation for the second time at a Carnival and in rehearsals prior to its final production this unit, typical of Canada's fighting forces, is eager to do everything possible towards victory. They too serve well.

Helpful Hints for the Protection of your GENERAL ELECTRIC Appliances

You can't be too careful with your electrical appliances these days—or too thrifty with power! So avoid leaving your refrigerator door open . . . defrost regularly . . . keep the interior sanitary, the exterior clean.

A little attention will keep your G-E Hotpoint Range looking like new and working thriftily. Wipe up spills immediately. Plan your cooking to take full advantage of all heat generated. Turn down heat immediately after a pot boils.

Empty the bag of your G-E cleaner frequently; turn bag completely inside out when cleaning; keep nozzle adjusted at proper height. Clean your washer after using; wipe all parts dry and release wringer rolls.

General Electric appliances are designed and built to last. But, with steel, aluminum, copper, tin and rubber in urgent demand for war needs, you can help Canada — and help yourself — by "nursing" all electrical appliances. By giving them extra care . . . by having your G-E dealer check them over.

EATON'S salutes the Winnipeg Winter Club and wishes it continued success in its 19th Annual Skating Carnival — an outstanding event of the Winter season — which reflects credit alike on the Organization and the City.
